SPF-PFS Needs Assessment Process Reflection Questions

- **What is an accomplishment from this process?**
 - Adams County had a good turnout at all four sessions and the participants were very open about the problem of underage drinking. We were able to collect excellent feedback and the adults in the focus groups expressed their willingness to get involved.
- **What is a lesson learned from this process?**
 - The Focus Groups sessions were very engaging and the adults had several great suggestions for solutions to address the issue of underage drinking. The process didn't take a tremendous amount of time but the rewards of the feedback were well worth the time invested.
- **What is something that surprised you?**
 - That everyone realized that underage drinking was a big issue and that the participants stayed on task and didn't start focusing on the drug issue.
