they hear you®

Sometimes
more help is
needed.
That is okay.
We are here to
help you!

Finding the right support can be challenging.

The Gallia Jackson Meigs ADAMH Board is here to help you. We will serve as a warm line to connect you with local treatment and prevention providers. The objective is to assist you in navigating the process of accessing behavioral health services with confidence.

**We will connect you with
support, and effective
strategies to help navigate
life's challenges.**

Families will be supported throughout the process to instill confidence in the behavioral health system, the GJM ADAMH Board, prevention providers, and the selected treatment agency.

740.446.3022

Here's How We Can Help:

- Our team will gather names and contact details of students and parents/caregivers.
- We will then reach out to treatment and prevention providers tailored to your county/school district.
- Treatment providers will schedule assessment and treatment progress sessions with parents/caregivers.
- Prevention providers working in schools may be informed about students who may require support.

Our Providers

- Field of Hope
- Hopewell Health Centers
- Health Recovery Services
- Integrated Services for Behavioral Health
